

# Record of suspicious transactions

The Control of Explosives Precursors Regulations 2014 requires the reporting of suspicious transactions relating to products containing certain chemicals:

- Hydrogen peroxide
- Nitromethane
- Nitric Acid
- Potassium chlorate
- Sodium chlorate
- Potassium perchlorate
- Sodium perchlorate
- Acetone
- Hexamine
- Sulphuric acid
- Potassium nitrate
- Sodium nitrate
- Calcium nitrate
- Calcium ammonium nitrate
- Ammonium nitrate

If your staff think a sale is suspicious, ask them to make a record collecting as much of the information in the template below as possible and report to the national contact point on 0800 789321 or email [Chemical.Reporting@Met.Police.UK](mailto:Chemical.Reporting@Met.Police.UK).
